

PV Grid Connect Inverter Warranty **Models ETN1000 and ETN2000**

Compiled by – Igsaan Jamie
5th October 2010.

Warranty:

1. Standard warranty on all Eaton branded inverters are five years (5 years) back to base. Additional warranty can be purchased on request.
2. The inverter **MUST** be installed in an Eaton approved enclosure for outdoor installations else the warranty is void.

Limited Warranty

Inverter comes with a limited warranty. This warranty includes all defects of design, components and manufacturing. Excluded from warranty are damages due to:

- Breaking the product seal (opening the casing)
- Improper transportation and delivery
- Unqualified persons opening the unit
- Improper installation
- Unauthorised modification, testing or repairing
- Use and application beyond the definition in this manual
- Application beyond the scope of safety standards
- Acts of nature such as lightning, fire, storm, floods etc.

The right to repair and/or replace the unit is at the manufacturers' discretion. Any damages discovered during installation should be submitted via a written damage report within 5 working days of receiving the PV-Inverter. Otherwise Eaton is not responsible for damages beyond the scope of this warranty.

In addition, Eaton standard warranty conditions apply.
